Licenses to Be Approved This Evening Without the Radical Restrictions.

The council will hold an adjourned nesting this evening, at which time the business unfinished at the Monday night meeting will be completed. The only matof importance that is liable to come s the approving of 123 saloon licenses. this number twenty-three have been up by the license committee, but it robable that they will all be approved. he mayor has taken a decided stand dust the radical action of the committee in requiring cigar stands in front of loons to close on Sunday, and that body has receded from its stand in that matter. The mayor has also declared that those who do not so desire will not have to sign the "pledge" of the Mutual Protective association in order to obtain a license. All he desires is a dry town on Sunday, and he will insist on that condition be-

ing complied with.

After the council session the regular committees will meet. The most important matter to come up is the consideration of the final estimate of Davis & Heuser for sewer extention No. 178. This was passed a month ago by the board of public works and has since been held up in the council finance committee because some of the members engaged in an ef-fort to drive this firm out of town and thus eliminate competition, want \$600 de-ducted as a forfeit for not completing the work on time. The board of works went into this matter thoroughly and did not think it fair under the circumstances to enforce this forfeit, and has so reported to

TAKING SCHOOL CENSUS. Basis for Distribution of State School

Funds. The enumerators who are taking the school census began their work yesterday in every section of the city. They must finish by July 31, and their reports will be tabulated shortly afterward. The census is necessary as the distribution of the state and county school funds is based on the school population in each district. Parents are requested to give the enum-erators every assistance possible, as they have but a short time in which to complete their work, and a thorough census is desired. All children between the ages of 6 and 18 are enumerated.

New Playhouse on Third South to Be Completed Oct. 15-Rathskeller in Basement and Bachelor Apartments Above.

Complete plans for the beautiful theatre which Mrs. Eveline S. Auerbach is to build in Third South street, between Main and State streets, were received yesterday from E. W. Houghton, the Seattle architest. The design is for a six--story building, toward Main street. The entrance to the theatre will be on the west side of the building, toward Main street. The entrance to the theatre will be in the center of the building. The remainder of the Third South street frontage will be taken up by three stores.

The theatre lobby will extend back 100 feet to the vestibule and foyer. On one side at the back of the auditorium, will be a smoking room for men and a parlor for women. There will be offices for to the theatre will be completed later. The portion of the building to be devoted to the theatre will be complete in every detail and the work upon the structure

This great success is not surprising when it is remembered that, in eczema cases, poslam stops the litching with first application, proceeds to heal immediately, and cures chronic cases in a few weeks. In minor skin troubles, such as pimples, blackheads, acne, herpes, blotches, rash, etc., results show after an overnight application. Experimental samples of poslam are lor for women. There will be offices for the theatre manager and his staff.

Back of the stage, in the basement, West Twenty-fifth street, New York J. Wallace and George S. Auerbach it was decided to finish only three stories this season, but to build the walls in accordance with the plans, so that the remaining three stories may be completed later. The portion of the building to be devoted to the theatre will be complete in every detail and the work upon the structure will be hurried to completion as rapidly as possible. The theatre is to be completed by October 15th.

board of public works at its session Friday evening.

The gas company asserts that when the mains were laid along First and Second avenues and on some of the intersecting atreets the proper grades were secured from the city engineer. Since then the streets have been paved and the grades from the city engineer. Since then the streets have been paved and the grades lowered considerably. The company asserts that it is the duty of the city to pay for the lowering of their mains, and they have presented a bill for approximately \$600, and assert that more bills are coming.

The trouble which secured Mrs. Missell a punch in the eye from Pansy, who is a dainty flower of 18 years, with all in the heavyweight class, grew out of an exchange of rings between the daughters of Mrs. Missell and Mrs. Streit, Pansy and her mother asserted that Mrs.

J. J. Daly's Ground at State and Fourth South Is Being Cleared for Excavation.

Hodgson of Billboards were torn down from the lot at the southwest corner of State and Fourth South streets yesterday so that the work of excavation may commence for the building which J. J. Daly, president of the Daly-Judge Mining company, is to erect upon the corner. Mr. Daly, who has been in California for some time past, is expected back today from San Francisco. It is understood that work upon the excavation will be started soon after his arrival.

Mr. Daly paid \$40,000 for the corner ot. It is said that he intends to erect a four-story office building, with stores on the ground floor, which will cost between \$75,000 and \$100,000.

Plans have not yet been completed for the \$200,000 Newhouse-Beck theatre at State street and Exchange place. expected that work upon the excavation for the theatre will begin soon after the return of Mr. Newhouse from New York. A number of other State street build-
